

SCHOOL CLOSURE CONNECTION: Supporting our students and families through COVID-19

As Roseburg Public Schools works to implement *Distance Learning for All* in accordance with the State of Oregon's requirements during school closures, a top priority is to ensure equitable access to technology for all students.

As part of this new program, we will be distributing Chromebooks and assisting with access to Internet hotspots for families who do not have access to devices or to the Internet. The district has received approximately 1,200 requests for devices and will begin distribution at school sites next week.

Families will be contacted tomorrow (April 3) through a One Call email and/or directly by their student's teacher to learn the pickup schedule for their school. Pickups will occur throughout the district on Tuesday and Wednesday (April 7-8).

Any students or families who have yet to connect with their school to request access may do so by visiting their school during the set hours that will be provided tomorrow.
